AN AI-POWERED BLOG

HOW TO START

A step-by-step start for beginners: niche, ideas, automation - and your first video this week.

ZALIHVAT · @zalihvat_ai

BEFORE YOU START

WHAT YOU NEED TO START

Good news: the barrier to entry is minimal now. AI does the hardest part for you - coming up with ideas and shaping them. You only need three things.

- ◆ **Motivation and a niche** - a topic you don't mind talking about.
- ◆ **Access to AI** - for text, images and video.
- ◆ **A phone and 1 hour** - no camera or budget needed.

WHERE TO GET AI

I use **multihub.ai** - text, images and video in one place. Cheaper than separate subscriptions, and no jumping between services.

THE PLAN

5 STEPS TO **YOUR FIRST VIDEO**

1

PICK A NICHE AND ANGLE

What you talk about and why it's you. One line: "I help [who] with [what]".

2

FIND YOUR KEY IDEAS

Run the prompt on the next page - AI picks topics for your niche.

3

PICK 1-2 FORMATS

Don't spread thin at the start. One or two working formats - and repeat.

4

SET UP SIMPLE AUTOMATION

Idea → script → visuals with AI. Less routine - more posts.

5

PUBLISH YOUR FIRST VIDEO

3-4 times a week, consistently. Done beats perfect.

THE MAIN TOOL

PROMPT: KEY IDEAS IN YOUR NICHE

Copy it into an AI, fill the fields in [brackets] - and get a map of the topics your blog is built around.

KEY IDEAS

ROLE: you are a content strategist and niche analyst. You think like an algorithm (watch-through, saves, reshares) and like a real viewer (pains, desires).

CONTEXT:

- Niche: [NICHE]
- Audience: [AGE, PAINS, DESIRES, FEARS]
- My angle: [WHAT MAKES ME DIFFERENT, WHAT I CAN DO]
- Format: short vertical videos (Reels/Shorts).

TASK: find the key topics and ideas to build a blog around in this niche - the ones that truly hook and gain reach.

DO IT STEP BY STEP:

- 1) Identify 5-7 pain points and 5-7 desires of the audience.
- 2) Define 5 content pillars (what I talk about regularly).
- 3) Under each pillar give 6 concrete video ideas with a hook.
- 4) Mark 5 "evergreen" topics and 5 trending/controversial ones.
- 5) Suggest 3 ideas that set me apart from competitors.

FORMAT (idea table):

Idea (hook headline) | Pillar | Pain/desire | Format | Why it works

At the end, give the 10 ideas with the highest reach potential - and why.
All in English, concrete, no fluff.

Save the result - it's your content plan for months ahead.

RUN YOUR BLOG IN 1 HOUR, NOT A WEEK

This guide is just the start. Zalihvat builds ready ideas, hooks, scripts, shot lists, teleprompter and captions for every platform in seconds - a month of content in an hour.
